**Date and place of birth: 15/05/1990, Prijepolje**

**Nationality: Serbian**

Dr Branko Kanjevac was born in 1990 in Prijepolje, Serbia. He completed his studies at the University of Belgrade – Faculty of Forestry in 2013. He defended his master’s thesis in 2015, and his doctoral dissertation in 2020 at the University of Belgrade – Faculty of Forestry. He speaks Serbian and English language and actively uses modern software necessary for research and data processing (R programming, SPSS and others).

Since 2014, he has been employed at the Faculty of Forestry, University of Belgrade, at the Chair of Silviculture as a teaching assistant. At the undergraduate and master’s academic studies, he performs practical exercises in several subjects from the scientific field of Silviculture. He is the Secretary of the Chair of Silviculture, and the Head of the Center for monitoring, data collection and processing of data in the field of silviculture.

He has published over 50 scientific papers in the field of forestry and participated in many international scientific conferences and symposia. He is the co-author of the practicum for practical exercises “Silviculture 2 – practicum” for students of the 4th year of undergraduate studies in the Study program Forestry. He was a reviewer in several scientific papers in international scientific journals.

As a member of research teams, he participated in the implementation of 7 national and 2 international scientific research projects. He is currently the leader of 2 national scientific projects and a member of the research team in one international scientific project.

He is a member of working groups within the 3 COST Actions: CA19128 [WG4], CA20118 [WG5], CA20108 [WG3].
