

Declaration of the Order of Forestry Experts of March 20, 2026

1. The Order of Forestry Experts supports, respects and will continue to promote, at all forestry institutions at global, continental or national level, the Forester's Declaration of August 25, 2011, created by the Council of European Foresters, the first document in the world, with a universal character, on the rights and obligations of the forester;

2. The Order of Forestry Experts will continue to act for its consolidation by bringing in Members of the O.F.E. important forestry personalities from countries on all continents;

3. The Order of Forestry Experts, a professional organization at global level and in the context of taking into account the important role of forests in mitigating the effects of climate change, supports at the level of all forestry institutions at global, continental or national level that the application of sustainable forest management is the only form of management for saving and developing forests and their functions;

We appreciate and thank all the participants present physically or online in the Auditorium of the Academy of Agricultural and Forestry Sciences in Bucharest at the O.F.E. Ceremony of March 20, 2026.

Marian Stoicescu
O.F.E. President
